Improving Children's Experiences

Our Austen House School service is specifically designed to support young people in experiencing education in a positive light, with bespoke timetables tailored to suit the needs of each individual, presenting them with the best opportunity to reintegrate into mainstream educational settings or training-based employment. We use approaches to understand a young person's behaviour, rather than just describe it, recognising the possible impact of learning differences associated with challenging behaviour, and how these uniquely impact on the young person. We aim to improve children's experience and quality of life through use of pro-active educational approaches to support a feeling of wellbeing and to reduce the risk of an incident occurring. We have huge aspirations for the children who learn with us at Austen House School, providing quality education and support so that young people can develop the skills they need to live independently and contribute positively to their local community.

A multi-disciplinary approach

Austen House School believes in a holistic approach when looking after our young people. Being a part of Your Chapter means we are part of a therapeutically led organisation and there is close co-operation between Clinical, Care and Education professionals. Our multidisciplinary team (MDT) approach, pairing education and care with a robust therapeutic input is an integral part of our Three Phase 'Wellbeing for Life©' recovery programme and bMINDFUL Psychology.

The backbone of our success

Weekly MDT meetings form the backbone of our practice with colleagues from all three disciplines coming together to discuss each young person. The focus lies on what went well in the past week, where to improve, and the progress made in completing their recovery programme, finishing by formulating a robust plan for the upcoming week.

MDT meetings have an allocated slot for young people to present their views, ensuring they are a part of their recovery programme.

Austen House School has dedicated clinical suite where all young people complete their 1:1 sessions with our employed Clinical Psychologists.
